Tools & Others: Git, GitHub, Supabase, API Integration, JWT Authentication, VS Code

---

EDUCATION

Bachelor's Degree - Computer and Information Systems
Delta Higher Institute for Computer and Information Systems
2021 - 2025
Grade: 75.03%

PROJECTS

Graduation Project - Invoices Management System (Team Leader) Technologies: React.js, Context API, JWT, CSS Live Demo: https://invoices-pearl.vercel.app

- Led team of 4 developers and designed complete front-end architecture
- Built invoice management system with JWT authentication and role-based access control
- Coordinated development workflows applying Agile methodologies

X-Hub E-commerce Platform Technologies: Next.js, Redux Toolkit, Supabase Live Demo: https://x-hub-eight.vercel.app

- Developed full-featured e-commerce application with product management and shopping cart
- Implemented Redux Toolkit for state management and Supabase for backend services
- Created responsive UI ensuring optimal performance across all devices

Flavor Land - Recipe Platform Technologies: Next.js Live Demo: https://flavor-land.vercel.app

- Built recipe sharing platform with dynamic routing and server-side rendering
- Optimized SEO and performance using Next.js features
- Implemented intuitive UI for recipe discovery and navigation

Hospital Management System Technologies: React.js, Bootstrap, JavaScript Live Demo: https://hospital-system.vercel.app

- Developed web application for managing hospital operations, patient records, and appointments
- Created responsive dashboard for healthcare staff with real-time updates
- Designed user-friendly interface for efficient data management

Personal Portfolio Website Technologies: React.js, HTML5, CSS3, JavaScript Live Demo: https://protofolio-mo-three.vercel.app

- Built personal portfolio showcasing projects, skills, and professional information
- Implemented smooth navigation with interactive UI elements
- Optimized for performance and responsive design
